Pixel my life: 24 Colour Grip coloured pencils with A4 Pixel-it colouring book

Children love excitement, fun - and pencils! The new Pixel-it trend is perfect for young artists. Faber-Castell has also launched a colouring book with Pixel-it designs, which comes in a cardboard box with 24 Colour Grip coloured pencils. The best part: when you start you have no idea how the picture will look once you have coloured in the boxes. And when the colouring book is finished? Simply click on www.faber-castell.de and download new templates from the microsite. As soon as you have finished another Pixel-it picture, upload it and share it with us!
