## **Perfect duo for quick sketches and illustrations: Goldfaber Sketch Marker**

They are easy to use, enable versatile techniques and accompany every creative project, at the desk or on the go - many good reasons why creative markers are so popular with hobbyists and professional artists.

With the new Goldfaber Sketch Marker range, users from the fields of design, fashion, architecture, comic and manga will now get their money's worth, because the creative tools have a lot to offer:

They are equipped with two different tips that complement each other perfectly: The metal-framed fineliner tip can be used to create detailed drawings, set accents in coloured areas and realise fine lines. The soft, flexible brush tip is suitable for designing areas of any size, whereby the line width can be controlled by varying the angle of inclination and drawing pressure. This allows you to achieve lively, flowing effects.

The range comprises a full 59 luminous shades. They were developed with professional artists and cover the entire spectrum of applications. Repeated application of the colours results in particularly high opacity.

Another plus: while conventional felt-tip pens often tend to streak, the colours of the Goldfaber Sketch markers flow homogeneously into each other when working quickly thanks to the alcohol-based inks. Extra highlight: the new blender, with which even, gentle colour gradients or highlights can be created.

The markers' alcohol-based ink dries very quickly - a great advantage for anyone who relies on the ink not smudging when creating quick sketches and illustrations.

The Goldfaber Sketch Markers are available in Basic Sets; there are also eight Theme Sets with specific colour families for a wide range of applications such as fashion, design, kawaii or graphic novel.

With the Goldfaber Sketch Marker, Faber-Castell is taking another step towards an even more sustainable range: the barrel and caps of the creative marker are made of 100% recycled plastic. Faber-Castell uses renewable raw materials for the packaging. The Goldfaber Sketch Marker is available in a case made of recycled cardboard.

#### **Goldfaber Sketch Marker:**

Basic Set of 12	36,00 EUR
Basic Set of 24 (incl. Blender)	72,00 EUR
Themed Set of 6	18,00 EUR
